

Annotating Electronic Materials for iOS, Android, and Kindle

For iOS:

1. Download Adobe Reader for your device (iPad, iPhone, etc) from the App Store.
2. Download each presentation summary that you are interested in annotating.
3. In your Internet browser, tap the “open in” button and select Adobe Reader.
4. To display the toolbar, tap toward the center of the screen.
5. Select the speech bubble with a pen to begin annotating.

For Android:

1. Download Adobe Reader from the Google Play Store.
2. Download each presentation summary that you are interested in annotating.
3. The presentation summary will be saved to your “downloads” folder if it does not open automatically.
4. Open the document in Adobe Reader.
5. Select the speech bubble with a pen to begin annotating

For Kindle Tablet:

1. Download Adobe Reader from the Kindle Store.
2. Download each presentation summary that you are interested in annotating.
3. In your Kindle downloads folder, under the option “open with,” select Adobe Reader.
4. Select the speech bubble with a pen to begin annotating.

For Kindle E-Reader:

1. PDF files cannot be annotated, but you can still study the presentations by e-mailing the document to your device.

Go to “My Account” on your device and scroll to the bottom of the page to find the e-mail address for your Kindle e-reader.
